PROJECTS

Game Project

Sept 2020 - May 2021

Card Game Phone App

Developed a card game App loosely based off Blackjack with online multiplayer features using Android Studio with Firebase as a database storage device.

Recipe Project

June 2021 - June 2021

Online Recipe Blog Website

Developed a website blog that would store popular cooking recipes. Using PHP Laravel to migrate information inputted on the website. The front-end designed using bootstrap and JavaScript.

Eden Project

July 2021 - Dec 2021

Online Environmental Website

For my Dissertation project, I developed an environmental website that would contain information predominantly regarding waste management in our environment while providing informative links to external environmental bodies that dealt with waste management in the UK. Utilised Google Map API with reverse geolocation to locate users position and then report the area they found the environmental concern such as waste or land degradation.

WORK

BMG Research

Jan 2020 - Jan 2021

Birmingham, United Kingdom

Market Research Specialist where I contacted company owners to help a company market its products or services.
